Administration Report of the Shahpura Chiefship for the Year 1919-20.

CHAPTER I.

GENERAL AND POLITICAL.

1. The Chiefship of Shahpura is situated between $25^{\circ}29'$ North Latitude and $74^{\circ}44'$ and $75^{\circ}7'$ east Longitude. Situation.

It is bounded on the North and North-East by the British District of Ajmer, and on three sides by the Udaipur State, except in the North-North-East corner, where the border touches that of Kishangarh. A small detached track lies about 5 miles to the west of its south-west boundary. Boundaries.

The Shahpura Chiefship is under the Political charge of the Political Agent, Harauti and Tonk, Deoli. Political charge.

The total area of the Chiefship is 705 sq. miles. The Chiefship consists of two Parganas, *i.e.*, Phulia and Kachhola. The former is held under the British Government and the latter under the Udaipur Darbar. Area.

The Khari and the Mansi are the only two rivers which flow in the North from West to East, join near Phulia and fall into the Banas river. Drainage.

The country is for the most part flat, open and treeless and contains much pasture lands. Geological formation.

2. The total population of both the Parganas of the Shahpura Chiefship is 63,499, *i.e.*, 47,397 of the Phulia Parganah and 16,102 of the Kachhola Parganah according to the Census of 1911. Population.

The gross revenue of the Chiefship for the past 5 years is Rs. 3,88,768. Revenue.

The Chiefship pays an annual tribute of Rs. 10,000, to the British Government and Rs. 3,000, chittori coin to the Udaipur Darbar. Tribute.

3. The Ruling Chief, Rajadhiraja Sir Nahar Singhji, K.C.I.E., a Shesodia Rajput, was born in January 1854 A. D. He is married to the sister of the Ruling Chief of Chhota, Udaipur State, Rewa Kanta Agency in Gujrat, a Chauhan Rajput. Shahpura is also connected by marriage with Jodhpur, Alwar, Kishangarh, Wankaner, Dharangdhra, Sunthrampur, Sikar, Khetri and Wadhwan. The Rajadhiraja has two sons, Rajkumar Umaidsingh and Rajkumar Sirdar Singh, and four grandsons, Raghuraj, son of Rajkumar Umaid Singh, and Shatrunjai (who is receiving his education at the Mayo College, Ajmer), Prakram Singh and Bhanwar Lall, born on 29th January 1920, sons of Rajkumar Sirdar Singh. The Chief and his family.

During the year under report the marriage of Bai Sahiba Laxmi Kuverji was celebrated with great pomp on 23rd February 1920. She was married to H.H. the Thakur Sahib of Wadhwan State in the Kathiawar Agency. The Thakur Sahib was received with great *jalus* by the Rajadhiraja and the members of his family. The guests began to arrive in Shahpura a week before the marriage date and the Chief guests were H. H. the Raj Sahib of Wankaner, H. H. the Maharaja Sahib of Mayurbhanj, a State in Orissa and H. CHAPTER II.

LAND ADMINISTRATION.

6. For the revenue purposes the Chiefship is divided into two Parganas, each Pargana consisting of the following Tehsils :—

- | | |
|----------------------|--|
| 1. Phulia Parganah. | 1. Shahpura including Dhikola.
2. Phulia.
3. Naharsagar. |
| 2. Kachhola Pargana. | 1. Kachhola.
2. Ulela.
3. Rerwas. |

Each Tehsil is under the charge of a Tehsildar who, in Parganah Phulia, is directly subordinate to the Revenue Musahib and in Pargana Kachhola to the Kamdar of Kachhola, as well as to the Revenue Musahib.

7. Munshi Mahabir Prasad, a lent Government servant of the Ajmer administration, continued to be Revenue Musahib in charge of the Revenue, as well as survey and settlement work.

The local Mutsadis trained to Survey work by Munshi Bhagwati Prasad, Patwari Instructor, lent by the Ajmer Administration, have worked well and now completed the Survey with the exception of 4 villages.

The compilation of the settlement records and the assessment papers has been taken in hand and from the next financial year cash rent system on the new lines will be introduced in 32 villages.

8. The local conditions and the uncertainty of rainfall do not admit of fixed assessment. The system now adopted in the assessment of Khalsa villages is nearly analogous to what is known as fluctuating assessment in certain villages of the Ajmer-Merwara District, and the annual rates have been based on the produce of the various soils having been ascertained from the Kuntai and Latai records of past years and from crop experiments. This rate will not be enhanced for 12 years. It, however, fluctuates between minimum and maximum standards, according to the sources of irrigation and the nature of the crops sown in a harvest. The irrigated cotton in the Kharif and the irrigated Rabi crops (not sown in kharif) pay $\frac{3}{4}$ of the rate : all other crops irrigated in Kharif pay half in kharif, and if resown in Rabi pay the remaining half. Similarly unirrigated crops, if manured, pay half and unirrigated unmanured crops pay only one fourth the rate. Lands of any class sown in the harvest which yield produce less than seed are not assessed and if the produce is fodder only 8 annas per bigha is charged. The main object in view is that if the cultivator gets his full crops, the Raj, too, gets its full rate, otherwise the Raj shares its revenue proportionately with a tenant.

Nothing is levied on the lands left uncultivated in the year unless the non-cultivation is due to the cultivators' carelessness, when one fourth of the rate is levied.

Fodder crops grown in hot weather under wells or lucerne crops to the extent of 5 Biswas under one well is exempted from assessment.

Under this system remissions are not necessary as a rule and the demand of one year does not ordinarily hang upon the cultivator in the succeeding year.

9. Up till now throughout the Pargana Phulia the tenants had no tenancy rights over their lands. Now that the settlement of villages is made, the cultivators are given *pattas* signed by the Rajadhiraja for lands held by them on payment of a nominal *Nazrana*. They are given the right of utilizing the trees grown on the lands and of mortgaging their lands among cultivating classes. They, or their successors, are not to be ejected therefrom as long as they punctually pay the Raj Revenue at the rates fixed.

As soon as the settlement papers are compiled the system of mutation of names in the revenue papers will also be introduced and the survey of the jagir villages will be undertaken when the Khalsa portion has been completely settled. The assessment system has so far proved popular and it is satisfactory to note that the Rajadhiraja, Rajkumars and Rani-sahiba have also got their jagir villages surveyed and similarly assessed.

The jagirdars are also tempted and 2 or 3 have already applied for the survey of their respective villages.

The total area cultivated during the year was 66,801 bigahas = 41,750 acres, as against 41,428 $\frac{1}{2}$ bighas = 25,892 $\frac{3}{4}$ acres in the last year.

The official year in the Chiefship begins on the 1st November, so the effect of the monsoon is perceived and noted in the following year.

The quantity of the rainfall was 33°62 inches, or say six inches above the average, but it was irregular. In the beginning it continued for a number of days and thus damaged the Kharif crops to a great extent and retarded the sowing of the Til and other Barani crops. The Rabi crops were unfortunately damaged by frost generally, to the great detriment of the tenants. The year was preceded by one of scarcity and the windfall in the cotton market added to the miseries of the cultivators. The insufficiency of the grain produce during the 4 consecutive harvests considerably told on the food prices. All these troubles occurring in a rapid succession resulted in a heavy financial strain on the agriculturists and their Bohras. The grass in the Birs and pastures was more than sufficient to maintain the agriculturists cattle and the sale of ghee fetched good prices to such of the cultivators as had milch cattle.

Alienation of the land. 10. During the year under report no land was alienated.

Boundary Dispute. 11. The boundary dispute between Alamoo in Kishangarh and Ratanpura, a village of the Chiefship, is still pending and the Political Agent has been asked to get it settled by the deputation of a Boundary Officer.

Custom and Excise. 12. During the year, Pundit Shive Prasad remained in charge of the octroi and Abkari departments, under the supervision of Babu Bhup Singh, Judicial Assistant.

The Sayar income shows a decrease of Rs. 13,739-14-6 when compared with last year and is due to the less export of cotton owing to fall in prices.

The Excise income shows an increase of Rs. 473-0-3 over last year.

Court of Wards. 13. There are six jagirs under the management of the court of wards, viz., Khamore, Baland, Nasarda, Bhimnagar, Jugpura and Fatehpura. The six minor Thakurs continue to receive their education in the Raj School, Shahpura, and reside in the Karamsot Boarding House. They have been well reported on by the Head Master.

The Rajadhiraja has recently given Rs. 1,000, for new instruments, and the Hospital now appears well stocked. The Sub-Assistant Surgeon informed me that he has met the excessive cost of European drugs by concocting remedies for many simple complaints from Indian drugs. A good operating room might be built when funds permit, but with this exception the building appears to be adequate and in a good state of repair. Sub-Assistant Surgeon Pt. Ram Rich Pal Shukla appears to be very keen on his work and interested in his profession, and the increase in number of patients show that he has gained the confidence of the people, and reflects much credit on him."

56. The other three small dispensaries mentioned last year continued to do good work within their respective Rural areas.

Dr. Ramrich-Pal's good work was reported last year and it is with satisfaction that he has continued to do good work during the year under report and Rajadhiraja has expressed satisfaction with his work.

MUNICIPALITY.

57. A Municipal Committee was nominated during the year to work on the lines of the Municipal Committees in British India. The Sub-Assistant Surgeon, Dr. Shukla, has been appointed Secretary and the Judicial Assistant, Thakur Bhup Singh, its president and they have evinced zeal in looking to the conservancy of the town.

CHAPTER VII.

Schools.

58. The education imparted in the Chiefship may be technically divided into two departments, namely, Primary and Secondary.

The Raj School maintained at the capital imparts, for the most part, the secondary education, sending up boys for the competitive Rajputana Middle School Examination. During the year under report five boys were sent up for the examination and all came out successful to the great credit of the Head Master, Pt. Bhairun Lall.

The Primary education is also imparted in the lower classes attached to the High School and the city Branch School.

There are 12 primary village schools, *viz.*, Dhikola, Kothian, Kanec-ham Kalan, Bach Khera, Kachhola, Arwar, Taswaria, Phulia Kalan, Kadisena, Dhanaop, Borda, and Amlı Kalan.

59. The highest examination for which the boys are prepared in the Hindi Section is the Vernacular Final Examination of the United Provinces, and two students out of four came out successful.

60. There is also one Girls' School at the capital, having on its roll 52 girls.

61. Three Boarding Houses are being maintained by the Chiefship, namely, Karamsot Rajput Boarding House; (2) Raghuraj Boarding House; and (3) Brahm Boarding House. The first and the third are entirely maintained by the Chiefship while the second is wholly kept up at the expense of Rajkumar Umaidsingh.

Boarding
Houses.

The Karamsot Rajput Boarding House, named after the illustrious mother of the Rajadhiraja, is attached to the Raj School and has 28 boarders of all classes on its roll throughout the year, while the Raghuraj Boarding House, named after Raghuraj, grandson of the Rajadhiraja, maintained 13 Rajput boys.

The Brahm Boarding House has on its roll 22 boarders and is maintained by the Chiefship.

Not only is the education in all the schools free but scholarships are also awarded to deserving students joining the Government High School and the D.A.A.V. High School, Ajmer, after finishing their education here.

The annual prizes are also distributed every year to deserving students for encouragement.

62. Pandit Shiva Narain Devashri, D.A., L.A.G, remained in charge of the Agricultural Department throughout the year.

There is an Agricultural School at Naharsagar where sons of the agriculturist classes receive free education. There is also a Boarding House attached to the School where the students live and are maintained at the expense of the Chiefship.

Agricultural
Department.

The excessive rains in the Kharif harvest stood in the way of making successful crop experiments. The Rabi experiments were, however, successful, especially Pussa wheat Nos. 12 and B 31, which produce was decidedly above the average local wheat crop.
